WHO AM I?

Hello! I'm Daniel Peñaloza, a Full-Stack Web Developer with a deep love for creating seamless, user-friendly web applications.

I thrive on turning innovative ideas into robust, efficient, and user-centric web solutions. Solving complex problems and collaborating with talented teams fuels my passion for web development.

EXPERIENCE

- Start: 2024-03-01 at the moment **Junior developer** SPA Grupo Inmobiliario
I work as a software developer, creating business applications for all the internal needs of the business group using web technologies as React.js, Next.js, Astro and mobile using Flutter.
Collaborating with a great team, training and leading members in the company software developments.
React.js / Next.js / Astro.js / MySQL / Express.js / Angular / Flutter
- Start: 2022-04-04 2024-03-01 **IT Analyst** SPA Grupo Inmobiliario
I worked as a software developer, creating business applications for all the internal needs of the business group
React.js / VPS / IT support / MySQL / PHP

EDUCACIÓN

- 2023 - 2025 **Systems Engineering** UNIAJC
I'm finishing my bachelor's degree in systems engineering at the Antonio José Camacho University in Cali, Colombia.
- 2020 - 2022 **TADSI** Servicio Nacional de Aprendizaje (SENA)
I studied a technologist degree in the Analysis and Development of Information Systems
